

## 2017 New York City Science and Engineering Fair - COMPLETE PARTICIPANT LIST

The New York City Science and Engineering Fair (NYCSEF), sponsored by the New York City Department of Education (NYCDOE) and the City University of New York (CUNY) / Office of Academic Affairs, is the city's largest high school research competition. Approximately 700 students from around the city submitted applications to the 2017 NYCSEF for a chance to compete for a variety of cash and prizes including an all-expense trip to Los Angeles, CA representing New York City at the Intel International Science and Engineering Fair (ISEF). This year's Preliminary Round was held on Sunday, March 5, 2017 at The City College of New York (Manhattan). The top 25 - 30 percent of student researchers from each subject category were selected to participate in the Finals Round on Tuesday, March 28, 2017 at the American Museum of Natural History. All award winners, including the names of the thirteen students selected to represent NYC at the International Science and Engineering Fair in May as well as approximately 170 other award winners were announced at the NYCSEF Awards Ceremony on March 31, 2017 at Tribeca Performing Arts Center at the Borough of Manhattan Community College. The names of all of this year's participants are listed below. Congratulations to all of this year's participants and award recipients.
